

BORSA ITALIANA - STAR segment

EXECUTED THE SPIN-OFF OF THE BUSINESS UNIT
OPERATING IN THE ADDITIVE MANUFACTURING FIELD
PRIMA ADDITIVE Srl IS BORN

Collegno (TO), April 1, 2022 - Prima Industrie S.p.A., a company leader in high-technology laser systems, sheet metal processing systems and electronic components for industrial applications, announces that today the spin-off of the Business Unit active in the field of additive manufacturing technologies, and the transfer of the same to the company 3D New Technologies Srl (3D-NT) has been completed. The operation took place through the subscription in kind by Prima Industrie of the reserved capital increase carried out by the company 3D-NT which then approved the change of the company name in Prima Additive Srl.

By means of this transaction, Prima Industrie acquires a 50.01% stake in Prima Additive Srl.

Prima Additive Srl will also maintain close industrial collaboration relationships with Prima Industrie Group.

The purpose of the operation is to make synergistic the activities of the two units involved in the operation to accelerate the development and marketing process of the products and the growth plans of the new company that will operate in a market with great development prospects.

The transaction is also linked to a larger project that provides for the entry in this company of new investors to contribute to the business development plans.

PRIMA INDUSTRIE heads a Group leader worldwide in developing, manufacturing and marketing of laser systems for industrial applications, sheet metal processing machinery as well as industrial electronics, laser sources and solution for additive manufacturing.
