

BORSA ITALIANA - STAR segment

PRESS RELEASE

COMMENTS TO NEWS PUBLISHED ONLINE

Collegno (TO), March 4, 2022 - Prima Industrie S.p.A, commenting on the news published on some online websites, confirms that in the past few days it was the subject of a hacker attack that mainly affected the Finnish plant.

Following the necessary checks carried out, the Company informs that the stolen data are not of significant relevance for normal operations.

The above has been reported to the various competent authorities, also pursuant to (EU) Regulation 2016/679 (GDPR).

PRIMA INDUSTRIE heads a Group leader worldwide in developing, manufacturing and marketing of laser systems for industrial applications, sheet metal processing machinery as well as industrial electronics, laser sources and solution for additive manufacturing.

The parent company Prima Industrie S.p.A. is listed on the Italian Stock Exchange since 1999 (MTA- STAR segment).

With over 40 years of experience, the Group has an installed base of about 14,000 machines in more than 80 countries and is positioned among the main worldwide manufacturers within its own reference market.

The Group has about 1,700 employees, manufacturing sites in **Italy, Finland, USA and China** and a direct commercial and after-sale presence worldwide.

Prima Industrie Group is structured on four *Business Units*:

Prima Power - development, production and marketing of laser and sheet metal processing (2D and 3D laser machines, laser drilling systems, punching and combined systems, bending and paneling systems);

Prima Electro - development, production and marketing of embedded electronics for industrial applications;

Convergent Photonics - development and production of diodes and laser sources, both industrial and medical;

Prima Additive - development, production and marketing of additive manufacturing solutions with Powder Bed Fusion and Laser Metal Deposition technologies.
