

PRESS RELEASE

ITALIAN STOCK EXCHANGE – STAR SEGMENT

PRIMA INDUSTRIE

STRONG GROWTH IN FIRST QUARTER 2008 RESULTS, REFLECTING THE CONSOLIDATION AREA WIDENING (TWO MONTHS OF FINN-POWER GROUP AND A QUARTER OF OSAI GROUP):

- **CONSOLIDATED SALES AT 75.7 MILLION EUROS (35.0 million euros at 31/3/07);**
- **EBITDA AT 8,220 THOUSAND EUROS (4,823 thousand euros at 31/3/07);**
- **NET PROFIT AT 3,356 THOUSAND EUROS (2,136 thousand euros at 31/3/07);**
- **NET FINANCIAL POSITION AT 168.9 THOUSAND EUROS (-0.8 at 31/12/07 and -5.7 at 31/3/07);**
- **ORDERS BACKLOG AT 136.6 MILLION EUROS (59.8 million euros at 31/3/07);**
- **NET PROFIT PER SHARE AT 0.73 EUROS (0.46 at 31/3/07).**

Collegno (Torino), May 14, 2008 – The Board of Directors of Prima Industrie S.p.A., a leader company in the high technology sector of laser systems for industrial applications and sheet metal working systems, has met today to approve the Quarterly Report at 31/3/08.

It is hereby highlighted that the results of the period are not homogeneous with correspondent figures at 31/3/07 because:

- on 4/2/08 Prima Industrie S.p.A. acquired Finn-Power Group, which has been included into the consolidation area for two months (February and March);
- in the correspondent period of previous year it was not included the Osai Group, which entered the consolidation area as from second half 2007.

Consolidated sales at 31/3/08, in accordance to IAS 18 and, as for a small percentage of Finn-Power Group revenues according to IAS 11, amount to 75,706 thousand euros.

These include within the consolidation area:

- the newly acquired Finn-Power Group for 32,962 thousand euros
- Osai Group for 4,698 thousand euros

Therefore, considering same consolidation area, quarterly sales would have been at 38,046 thousand euros (+8.6% compared to 35,026 thousand euros at 31/3/07).

The sales geographical breakdown at 31/3/08 is the following:

	1st quarter 2008		1st quarter 2007	
	thousand euros	%	thousand euros	%
ITALY	22,157	29.3	9,325	26.6
EUROPE	32,478	42.9	14,993	42.8
NORTH AMERICA	12,144	16.0	7,706	22.0
ASIA & ROW	8,927	11.8	3,002	8.6
TOTAL	75,706	100.0	35,026	100.0

As for the growth in terms of percentage, it comes out in particular the growth of Asia and ROW, thanks to contribution of Finn-Power Group sales and in general the continuing development of Group sales in such areas.

The percentage related to sales in North America is reduced also due to the strong depreciation of dollar. Europe, even if double in absolute figures respect to same period of last year, remains constant in percentage, confirming the similar weight of laser systems and sheet metal working machines segments while it results slightly growing the weight of Italy mainly thanks to sales of electronics products (mainly Osai S.p.A.).

The **production value** at 31/3/08 is at 88,541 thousand euros.

Also on this comparison, it must be reminded the important contribution coming from the consolidation of:

- two months of Finn-Power group (equal to 40,036 thousand euros)
- Osai Group (equal to 5,644 thousand euros).

Therefore, for the same consolidation area, respect to 31/3/07, growth is approx. 5.6% compared to correspondent value of previous year (42,861 thousand euros as against 40,571 thousand euros at 31/3/07).

All profitability ratios have recorded remarkable growth in absolute figures compared to correspondent values of previous year, as a consequence both of the operating leverage as well as the economies of scale (for the companies already consolidated at 31/3/07) and of the contribution coming from the consolidation of Osai Group and Finn-Power Group (two months for the latter).

	1st quarter 2008		1st quarter 2007	
	thousand euros	%	thousand euros	%
EBITDA	8,220	10.9	4,823	13.8
EBIT	7,210	9.5	4,498	12.8
EBT	4,459	5.9	4,096	11.7
NET PROFIT	3,356	4.4	2,136	6.1

The Group **EBITDA** is at 8,220 thousand euros (10.9% of sales). As for the external growth:

- the contribution from Finn-Power Group is of 2,828 thousand euros
- the contribution from Osai Group is of 420 thousand euros

Therefore the increase, considering same consolidation area respect to same period of previous year, is of 3.1% (4,972 thousand euros against 4,823 thousand euros at 31/3/07).

The consolidated **EBIT** at 31/3/08 is at 7,210 thousand euros, corresponding to 9.5% of sales. This includes:

- the contribution of Finn-Power Group for 2,229 thousand euros;
- the contribution of Osai Group for 368 thousand euros.

Therefore the organic increase (4,613 thousand euros respect to 4,498 thousand euros at 31/3/07) is corresponding to 2.6%.

The increase of operating profitability reflected only partially on the **profit before taxes** at 31/3/08, amounting to 4,459 thousand euros, respect to 4,096 thousand euros at 31/3/07, mainly due to the high financial charges following the major debt for the Finn-Power operation.

The **net profit** at 31/3/08 is at 3,356 thousand euros (4.4% of the Group business), respect to 2,136 thousand euros at 31/3/07 (6.1% of business).

The impact of taxation appears reduced, both because Finn-Power Group takes advantage of remarkable carry-forward fiscal losses and the Group counts, as far as the Italian companies are concerned, tax assets for Research & Development ex Financial Law 2007, carrying a positive effect for 820 thousand euros.

At 31/3/08 the **net financial position** was at 168,945 thousand euros.

The difference respect to 31/12/07 (when the net financial position was -768 thousand euros) applies to:

- the opening of financing contracts to be used for partial payment of Finn-Power Group acquisition operation (63,015 thousand euros) and the reimbursement of pre-existing financial debts o Finn-Power (for 75,669 thousand euros);
- the financial debts towards the vendor (30,000 thousand euros) for the part still to be settled;
- the taking over of Finn-Power financial debts which were not reimbursed, gross from cash existing in Finn-Power Group at the time of the acquisition.

The **consolidated orders' acquisition** at 31/3/08, related to systems, machines and electronics only (and therefore not including the after-sales service activities), amounts to 72,304 thousand euros.

The acquisition was 35,496 thousand euros in same period of 2007.

The orders collection in the quarter registered, in particular for the laser systems and sources sector, a growth in the 3D sector.

Good also the **consolidated orders' backlog** at 31/3/08 which, as for systems and machines, is equal to 136,599 thousand euros (of which 74,232 related to Finn-Power Group and 3,753 thousand euros related to Osai Group), compared to 59,835 thousand euros at 31/3/07.

During the quarter, the Group continued to strongly invest in **Research & Development**. At 31/3/08 the total costs beard by the Group in the period under examination was of 3,648 thousand euros, of which 2,503 thousand euros charged to P&L.

The **parent company PRIMA INDUSTRIE S.p.A.** continued, during this first quarter of the year, its steady improving trend both as for sales and profitability.

Sales at 31/3/08 (28,319 thousand euros) were in fact growing by over 15% respect to 31/3/07 (24,576 thousand euros).

Even more remarkable is the improvement of the operating profitability at 31/3/08, up to 2,969 thousand euros (10.5% of sales) from 2,533 thousand euros at 31/3/07, with a growth of 17%.

The good trend of the parent company PRIMA INDUSTRIE S.p.A. should continue also during next months thanks to the orders' backlog from third customers that, taking into account only the orders related to systems, at 31/3/08 amounts at 37,234 thousand euros (+8.6% respect to 34,277 thousand euros at 31/3/07).

During today's meeting, Prima Industrie S.p.A. Board of Directors, according to the proxy conferred to the Board itself, ex article 2443 of Civil Code, by the Extraordinary Shareholders' Meeting on 29/4/08, has resolved to increase by cash the share capital for maximum nominal 4,500,000 plus share premium, through issuing of total maximum 1,800,000 ordinary shares of 2.5 euros each face value, to be offered in option to those having the right, regular entitlement, with compulsory full payment at the time of subscription. As for the issuing price, the Board decided to postpone the definition to a further meeting in order to establish the price in accordance to more recent market trends.

Finally the Board resolved to fix at 31/1/2009 the term, ex article 2439, second comma civil code, establishing that in case by such date the company capital increase will not be fully subscribed, the share

capital will be considered in any case increased of an amount equal to the collected subscriptions by such date and that the part not yet subscribed remains at disposal for the subsequent increase operations which may be resolved by the Board of Directors within the limits of the proxy granted by the extraordinary shareholders' meeting of April 29, 2008.

In order to execute the resolution, the Board has given faculty to the Chairman of the Board of Directors, dr. Gianfranco Carbonato, and to dr. Marco Pincioli, separately between themselves.

Gianfranco Carbonato, Chairman and C.E.O. of Prima Industrie S.p.A., declared: "*the first quarter report issued upon the Finn-Power Group acquisition shows a strong growth in dimensions, even if Finn-Power has been consolidated for two months only. The Group management is strongly involved in the complex integration and organization processes foreseen at the time of acquisition. Among these there is the announced intervention on the equity through the capital increase on the market, which is in an advanced phase of preparation*"

"The manager responsible for preparing the company's financial reports, Massimo Ratti, declares, pursuant to paragraph 2 of Article 154-bis of the Consolidated Law on Finance, that the accounting information contained in this press release (as far as quarterly figures are concerned) corresponds to the document results, books and accounting records".

The company results will be presented to the financial community at 9.00 A.M. tomorrow, May 15, 2008, during a conference call.

For details please apply to company web-site www.primaindustrie.com (see Investor section, Information to Shareholders)

PRIMA INDUSTRIE, established in 1977 and listed at the Italian Stock Exchange since 1999, currently present on the STAR segment, develops, manufactures and markets high-power laser systems for cutting, welding and drilling of three-dimensional (3D) and bi-dimensional (2D) parts.

PRIMA INDUSTRIE leads a Group with nearly 1,700 employees, with manufacturing facilities in Italy (PRIMA INDUSTRIE S.p.A., PRIMA ELECTRONICS S.p.A., OSAI S.p.A. and Finn-Power Italia Srl), Finland (Finn-Power Oy), USA (PRIMA North America Inc.) and China (Shanghai Unity Prima Ltd. and Shenyang Prima Laser Machine Company Ltd.), and with a wide sales network in about 50 countries.

At present the Group, in the sector of laser machines, has over 2500 systems installed worldwide with more than 1000 customers in the automotive, aerospace and in a wide range of other industries.

After 30 years from its incorporation, PRIMA INDUSTRIE's mission is still the same of its origin: innovation, excellence, growth.

The Group recently widened its borders acquiring the Finnish company Finn-Power, leading a group with great experience and know-how in the sector of sheet metal fabrication, and so becoming a worldwide lead role player in the sector of laser systems and sheet metal processing .

(1): calcolato utilizzando la media ponderata del numero di azioni Prima Industrie in circolazione nell'esercizio 2007.

Non si è tenuto conto degli effetti del progettato aumento di capitale sociale che l'Assemblea degli Azionisti progettato aumento di capitale sociale che l'Assemblea degli Azionisti di Prima Industrie, in sessione straordinaria, ha deliberato in data 29 aprile 2008.

Di seguito sono descritte le rettifiche pro-forma effettuate ai fini della predisposizione del conto economico consolidato pro-forma in oggetto.

Conto economico consolidato Gruppo Prima Industrie al 31 dicembre 2007

La colonna in oggetto include il conto economico consolidato al 31 dicembre 2007 del Gruppo Prima Industrie, così come estratto dal bilancio consolidato relativo all'esercizio chiuso al 31 dicembre 2007, redatto in conformità agli IFRS, approvato dal Consiglio di Amministrazione in data 27 marzo 2008, ed assoggettato a revisione contabile dalla società di revisione PricewaterhouseCoopers SpA, la quale ha emesso la relativa relazione in data 11 aprile 2008.

Consolidamento integrale del Gruppo Finn-Power

La colonna in oggetto evidenzia l'effetto contabile pro-forma connesso all'apporto a livello economico che si sarebbe ottenuto sul conto economico consolidato del Gruppo Prima Industrie qualora l'Acquisizione fosse avvenuta il 1° gennaio 2007.

A tale proposito, si è proceduto consolidando con il metodo integrale il conto economico consolidato al 31 dicembre 2007 del Gruppo Finn-Power. Tale conto economico consolidato, incluso nella presente colonna, è stato estratto dal bilancio consolidato relativo all'esercizio chiuso al 31 dicembre 2007, redatto in conformità agli IFRS, approvato dal Consiglio di Amministrazione di Finn-Power Oy in data 21 aprile 2008, ed assoggettato a revisione contabile dalla società di revisione PricewaterhouseCoopers Oy, la quale ha emesso la relativa relazione in data 30 aprile 2008.

Effetto dell'Acquisizione sugli oneri finanziari

La colonna in oggetto descrive l'effetto netto prodotto dall'Acquisizione sulla voce di conto economico consolidato "Oneri finanziari". Tale effetto netto è la risultante delle seguenti due scritture di rettifica pro-forma:

- lo storno degli oneri finanziari, pari a Euro 7.438 migliaia, riferiti al preesistente indebitamento del Gruppo Finn-Power, rifinanziato a seguito dell'Acquisizione, e contabilizzati dal Gruppo Finn-Power stesso nel corso dell'esercizio 2007. Tale storno non ha comportato l'iscrizione del relativo teorico effetto fiscale, in quanto Finn-Power Oy, per l'esercizio 2007, non è un soggetto fiscale passivo (si precisa che la società finlandese nel corso dei precedenti esercizi ha maturato perdite fiscali a fronte delle quali, peraltro, non ha stanziato imposte differite attive);
- l'imputazione degli interessi passivi "figurativi" che si sarebbero manifestati sul conto economico consolidato relativo all'esercizio chiuso al 31 dicembre 2007 del Gruppo Prima Industrie, qualora l'Acquisizione fosse avvenuta il 1° gennaio 2007, e qualora i finanziamenti/differimenti di pagamento del prezzo di acquisto fossero stati ottenuti in tale data. Tale imputazione ha originato un maggior onere netto, per il conto economico consolidato del Gruppo Prima Industrie, di Euro 5.562 migliaia, descrivibile con la seguente tabella:
-

(Valori espressi in migliaia di Euro)	Importo	Tasso	Periodo	Oneri finanziari di competenza
Nuovo finanziamento bancario:				
Tranche A (7 anni - primo semestre)	49.348	5,80505%	6 mesi	1.432
Tranche A (7 anni - secondo semestre, dopo il rimborso de	45.823	5,80505%	6 mesi	1.330
Tranche B (8 anni - rimborso alla scadenza)	64.152	5,89954%	12 mesi	3.785
Debito verso azionisti venditori (3 anni - rimborso alla scac	25.000	6,00%	12 mesi	1.500
Oneri accessori finanziamento bancario	1.747		12 mesi	255
				8.302
Effetto fiscale teorico		33,0%		(2.740)
Effetto netto sul risultato del periodo				5.562

La tabella sopra riportata, rappresenta le modalità di calcolo dei suddetti interessi passivi "figurativi". A tal proposito, si segnala che:

- il tasso di interesse utilizzato con riferimento alle *tranche* A e B di finanziamento è rappresentato dall'Indicatore Sintetico di Costo ("ISC"), riferito alle suddette *tranche*, riportato nel documento di sintesi al contratto di finanziamento del 31 gennaio 2008. Tale parametro è stato ritenuto ragionevole per la simulazione dei suddetti oneri finanziari in quanto riepilogativo delle condizioni contenute nelle specifiche clausole contrattuali inclusa l'incidenza delle commissioni di organizzazione applicate al contratto di finanziamento. Nello specifico, è stato calcolato con riferimento all'Euribor a 6 mesi, rilevato il 29 gennaio 2008, al margine applicato alle specifiche linee di credito e alla suddetta incidenza delle commissioni di organizzazione;
- il tasso di interesse utilizzato con riguardo alla parte onerosa dell'indebitamento verso gli azionisti venditori (Euro 25.000 migliaia dei complessivi Euro 30.000 migliaia) è pari al 6%, così come previsto da una specifica clausola del contratto di Acquisizione siglato il 4 febbraio 2008;
- si è tenuto inoltre conto di ulteriori oneri accessori alla stipula del contratto di finanziamento, di natura prevalentemente finanziaria e legale, imputati pro-quota in base alla durata media delle *tranche* di finanziamento, stimata in 7 anni e mezzo.

A fronte della rettifica di imputazione degli interessi passivi "figurativi", è stato calcolato il relativo effetto fiscale teorico, utilizzando la sola aliquota IRES, pari al 33%, l'unica applicabile agli oneri finanziari, secondo la normativa fiscale di riferimento per la predisposizione del bilancio consolidato al 31 dicembre 2007.

Effetto fiscale derivante dall'esistenza di finanziamenti intercompany

In data 4 febbraio 2008, la Società ha stipulato due contratti di finanziamento, per complessivi Euro 61.633 migliaia (oltre a Euro 5.253 migliaia come credito di firma), a favore di Finn-Power Oy. Tali rapporti *intercompany* originano, a livello di singola società, un flusso di interessi attivi/passivi tra le parti. In sede di bilancio consolidato, tali interessi vengono elisi, ma in considerazione della diversa normativa fiscale esistente nei due Paesi di origine delle società in oggetto nonché della loro differente storia fiscale, si è ritenuto opportuno rappresentare nella presente colonna gli effetti fiscali derivanti da quanto premesso.

Più precisamente, a fronte dei finanziamenti/impegni concessi alla sua controllata, la Società avrebbe registrato nel proprio bilancio d'esercizio interessi attivi per circa Euro 3.600 migliaia a fronte dei quali si sarebbe originato un maggior carico fiscale di circa Euro 1.200 migliaia (stimato utilizzando la sola aliquota IRES pari al 33%). Per contro, la Finn-Power Oy avrebbe registrato nel proprio bilancio d'esercizio interessi passivi di pari ammontare, senza beneficiare di alcun effetto fiscale in quanto, come sopra anticipato, per l'esercizio 2007, non è un soggetto fiscale passivo.

In virtù di ciò, il Gruppo Prima Industrie avrebbe registrato un maggior carico fiscale teorico complessivo di circa Euro 1.200 migliaia.
